Not kidding, start making plans to restore Trump into office with your local crews. Our last barricade is his executive authority, if he doesn't use it then its on us. SCOTUS is compromised, Jan.6 objections need majority approval.

3 Real talk for a moment, its terrifying to think it but with the evidence provided, if trump DOESNT use his authority to protect the USA from the Chinese ploy then you should probably assume he is compromised as well or being prevented from acting through nefarious means. It would be his duty as the commander in chief to prevent a Chinese puppet from taking the white house so if this isn't prevented somehow then the safest course of action for patriots is to assume that not only was he neutralized from acting somehow but that for the last few months the patriots have been monitored to prevent them from being able to organize at a critical time and for an easier round-up.

1 If he doesn't, it means he doesn't have the support to do it. Every single one of our institutions has been corrupted by the leftists and that includes a lot of the military, especially in the most senior ranks.

This is just not factually correct. The electoral process, without further interference, will elect Biden. The burden of action is on Trump.
